

Material Handling & Logis-

Troax have representation throughout all areas of the UK and Ireland, as well as global representation in 22 countries.

Troax are unique in that they respond quickly to your enquiry, and provide the appropriate modular solution with access to locally held stocks.

Troax offer a CAD design service.

Troax offer a managed installation service.

Caelum—Storage and Industrial Wall Partitioning Systems. A very cost-effective modular mesh panel system which can be customised to fit your specific requirements. Available with varying security levels, panels are easily assembled on site.

Musca—Anti-collapse system; Anti-Collapse is the generic term for Troax pallet rack safety screens that prevent spillage and secure the working environment. Musca panels are available in a variety of different mesh apertures and stand-off bracket sizes

Titan—Is a high-quality double-skin partitioning system designed for clean room applications, although its versatility allows it to be used in a variety of other situations. Its 2-line system can be used to achieve a class 5 clean room.

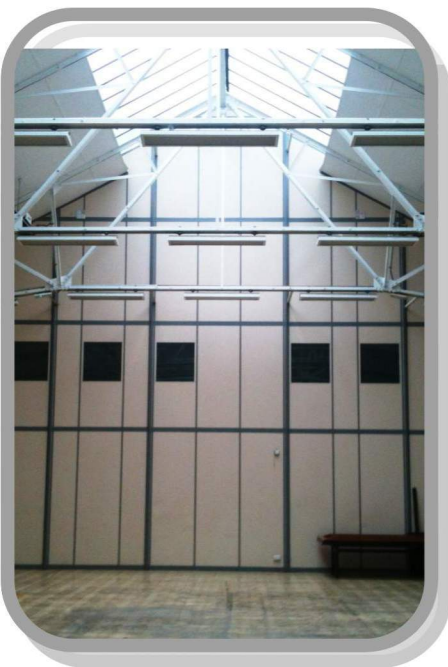

Elan double skin partitioning is a quality four-line system that is ideal for offices and areas where appearance is important. Elan can be used where sound reduction or fire-rating is important

Sigma is a single skin partitioning that is ideal for enclosing work areas within factories and warehouses without the cost of double skin. Panels are available in steel, steel / mesh, and several glazing configurations.

Bastion is an economic angle frame partitioning system with exceptional strength and durability. Panels are available in various combinations of steel, glass, and mesh and expanded metal to create highly secure perimeter protection for storage areas.

Cages & Maxi Boxes— Easily assembled, Troax provide an “off the shelf” solution for secure storage. Free Standing Cages are suitable for storing hazardous or valuable material, protecting against theft or vandalism.

Ceilings— A variety of roofing and ceiling options are available to accompany all of our partitioning ranges including Mesh, Tile & Grid (Lee Grid) single and double-skinned (Lee Span)

Standard and tailor-made solutions to fit all applications including:

- | | |
