Terms & Conditions

Important

All racking systems are supplied flat packed for assembly on site. Weights and loadings are based on **UDL** (uniformly distributed loads).

If the height to depth ratio is more than 4:1 then the racking should be secured to the floor or wall.

Prices

All quoted prices are exclusive of VAT at the prevailing rate and are subject to change. Errors and omissions excepted (E&OE).

Delivery

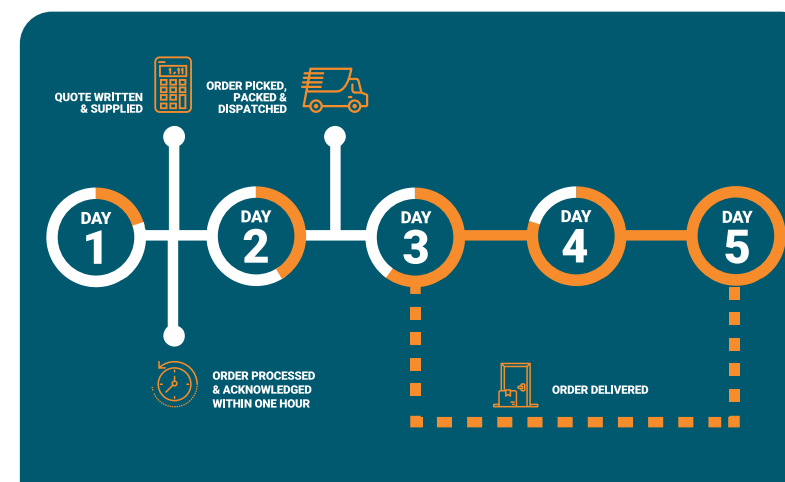

All prices are inclusive of delivery to the areas indicated in the schedule below. All orders under **£200** are subject to a **£10 small order charge**. Goods shall be delivered within 5 days from payment, if available from stock.

Delivery will be to a ground floor location and heavy items may require fork lift unloading and/or assistance on site.

Delivery is to a business address **Monday to Friday 8.30am to 5.00pm**. Restricted delivery areas or residential addresses may incur a surcharge.

Delivery Zones		
Area	5 Day	Next Day
Mainland England and Wales	FREE	P.O.A
Scotland (Only TD, DG, EH, ML, KA, KY, G)	+ £15.00	P.O.A

How to find the best storage solution

The storage environment.

We have tried to make selecting the right system storage system simple and easy. With clear and intuitive icons on each page, it's easy to make a quick selection. Need more information? No problem. Highly detailed technical information is available for each product.

Our application icons quickly and simply indicate the environment the system is most suitable for. Application can range from the office to retail to the warehouse. Most of our products are suitable for multiple environments - this is illustrated by the icons shown below.

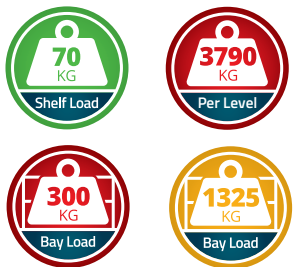

Please note the usage indicated is only a suggestion and doesn't limit the use of the product in different environments

What exactly do you need to store?

For most workplaces there is generally a wide variety of products that come in a wide range of sizes and loading capacities. It is important to have a clear specification of the weight and dimensions of the goods, this will give a clear understanding as to the type of shelving required.

From this information you will be able to establish the shelf and total bay capacity needed, the overall size of the shelf required to store the various items.

Note

Capacities stated on the icons are based on maximum uniformly distributed loads (UDL). The total bay load is dependent on several factors such as shelf pitch (distance between levels), height of the first shelf & actual size of the shelves.

The meaning of the colours:

Light Duty

Medium Duty

Heavy Duty

Find your solutions.

In addition to our key application and loading icons, we illustrate further information using the icons shown below. You will find these icons at the start of each major product section.

The icons below illustrate dimensions (Height, Width, Depth), application, construction as well as more detailed loading information. The information you'll find below each of these icons act as a summary for the product section that follows, saving you time when you're finding the perfect storage solution.

From left to right these icons illustrate - height, width, depth, application, construction and loading

Guarantee

All of our products come with a guarantee. You will find the relevant guarantee detailed on the first page of each product section.

Assembly Time

Assembly time is now noted on all shelving. This can range from 5 – 20 minutes, based on two competent people building a single bay.

Additional Features

Our product range is vast and extremely diverse, as a result each product has its own features and benefits. Our icons visualise some key features.

These small target icons appear under some images, in pricelists and support graphics. They link the pictured product with its actual size in the pricelist.

1. Bay Connector (sold separately) | 2. Upright Connector | 3. Plastic Foot

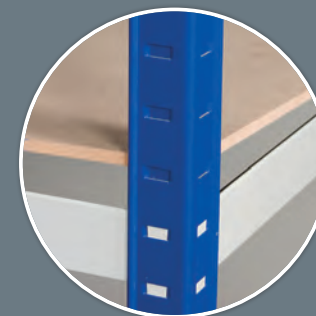

CLICKA SHELVING

Clicka shelving offers two shelf capacities which offers a solution to your storage needs, as well as your budget.

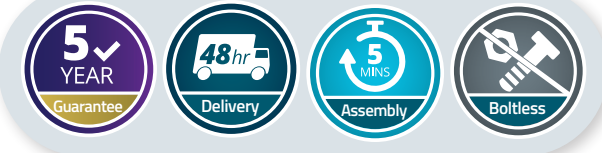

It is simple to erect yet has all the strength you are likely to require and is available in 175kg or 265kg shelf capacities. Manufactured with high quality materials and finish, you can have peace of mind that our Clicka system has been tested and certified to the highest European standards – GS TUV.

Whether you are fitting out the home or workplace, our Clicka Shelving kits offers strength and simplicity at an incredible price.

- **Best value shelving system**
Choose either 175kg or 265kg shelf capacity at great prices
- **Superior quality and strength**
Robust and strong – Fully tested and certified by GS TUV
- **Easy to assemble and re-configure**
Build a bay in less than 10 minutes with just a rubber mallet
- **Fast 48hr delivery**
There when you want it – without fail
- **Will suit any application**
A versatile range, ideal for home, office, garage or storeroom

Our best value shelving – compare our quality and our prices

KWIKRACK

Our new Kwikrack offers a robust and cost effective storage solution for any application. The unique 6 fold channel beam offers shelf capacities of 300kgs with a shelf height of only 54mm. The design of the beam allows for an inset chipboard decking design with interlocking deck supports for a strong and robust shelf level.

The system is simple to erect, yet has all the strength you are likely to need. The bays just tap together with a rubber mallet so you can organise your storage in a fraction of the time it can take with more traditional systems. With a build time of just 10 minutes, large installations will be completed in no time at all.

- **Easy to assemble and re-configure**
Build a bay in 10 minutes with a rubber mallet
- **Will suit any application**
A versatile range, ideal for home, garage or industry
- **Best value shelving system**

RIVET RACKING

Offers incredible value for money, whilst offering amazing strength and rigidity.

The system is simple to build with all parts being tapped together using a rubber mallet. All components are joined via the heavy duty rivet and key hole slot which offers a simple and effective way to assemble the racking.

There are no nuts and bolts and the bays require no bracing therefore offering uninterrupted access on all four sides. Bays are available in various heights up to 3660mm high.

With the average time to assemble a bay being just 5 minutes, you will be amazed at how easy it is to create large installations in no time at all. All bays are ready for immediate dispatch and will be delivered in 5 working days.

- **Best Selling system**
Offers the widest choice of sizes, all at great value
- **Easy to build and re-configure**
Simply tap together with a rubber mallet
- **Strong and sturdy**
With shelf capacities up to 600kgs, it easily copes with heavy goods
- **No nuts, bolts or screws**
Simple and quick to erect, with no fuss
- **Strong epoxy paint finish**
Designed to give years of service and withstand heavy use
- **Will suit any application**
Versatile and expandable, suits a wide range of industries
- **Guaranteed delivery in 5 days**
There when you need it, without fail

Heavy & Medium Rivet

Incredible value for money, amazing strength and rigidity. Bays come complete with 3 or more levels and have a central deck support on bays 1220mm to 2135mm wide, whilst 2440mm wide bays have two per level.

J Rivet

Our J rivet system has unbeatable strength at an incredible price. It is also manufactured to the highest quality. The shallow J beam profile (only 30mm thick) gives increased storage capacity whilst maintaining excellent strength.

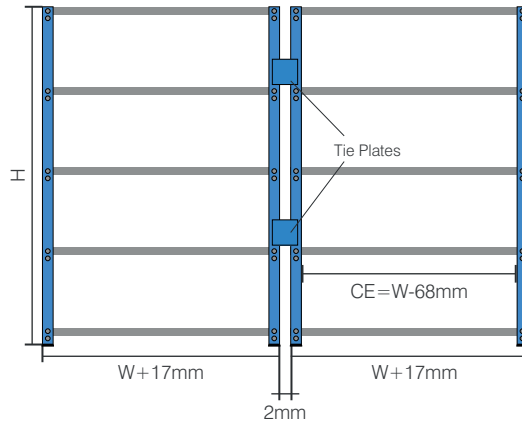

Heights	Widths	Depths	Application	Construction	Loadings

* Dimensions used in price tables

Rivet Racking Bay Loading (kgs)

Rivet Upright

	J Rivet	Heavy Rivet
A	98mm	125mm
B	see below ⓘ how to calculate exact Shelf Pitch	
C	B minus D	B minus D
D	30mm	88mm

A Minimum First Shelf Level Height
B Shelf Pitch - Distance between levels
C Clear Entry - Useable space between shelf levels
D Shelf Thickness - Beam and chipboard

ⓘ How can you calculate exact Shelf Pitch (B)

Height of item stored + Shelf Thickness divided by **38.1**
 = Round decimal up to the next whole number and multiply by **38.1**

e.g. 320mm (Height of stored items) + 88mm (Heavy Rivet) / 38.1
 = 10.7 rounded to 11 x 38.1 = 419.1mm Shelf Pitch

We have multiple solutions to different storage problems, if you are unsure what's best for you, please contact us.

Rivet Racking accessories and components

1. J Rivet Beam

Decking is flush with the top of the beam

2. Notched Side Beam

Used with tubes to create rails

3. Rivet Upright

Uprights can be up to 3660mm high

4. Tie Plate

Connects two bays together

5. Plastic Feet

Comes as a standard with every bay

6. Metal Foot

Allows the bay to be floor fixed

7. Heavy Rivet Beam

Decking sits on top of the beam

8. Tray Shelf

Reversed medium rivet 'L' beams

11. Deck Support

Adds strength to shelf levels

10. Wall Bracket

Allows the bay to be wall fixed

9. Chipboard Deck

Rivet Racking uses 15mm and 18mm decks

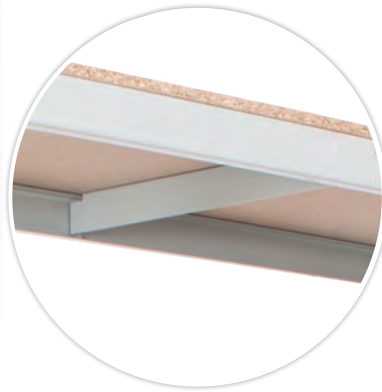

Industrial racking for any application

Bay Colour Options

-  For **Blue Uprights with Orange Shelves** add **/BO** to the end of your chosen price code.
-  For **Blue Uprights with Grey Shelves** add **/BG** to the end of your chosen price code.

J RIVET

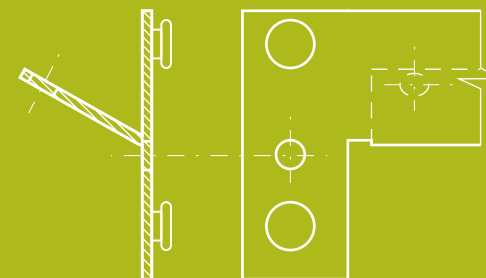

Fully flexible, low cost shelving system

Our J Rivet system offers unbeatable strength at an incredible price, manufactured to the high quality you have come to expect from one of the UK's leading suppliers.

The shallow J beam profile provides increased storage capacity whilst maintaining excellent strength. To maximise flexibility, our J Rivet range is compatible with our incredible Heavy Rivet range.

The system is simple to erect yet has all the strength you are likely to need with a bay load of up to 2800kg. The bays simply tap together with a rubber mallet so you can organize your storage in a fraction of the time it can take with more traditional systems.

With the average time to assemble a bay being just 5 minutes, you will be amazed at how easy it is to create large installations.

Remember, if your shelving height to depth ratio is greater than 4:1, the bay should be fixed to the floor or to the wall.

RIVET DIVIDER SYSTEM

Our Rivet Divider System provides an effective way to store loose or awkward items. The bays provide multiple locations for separating individual products.

The system uses our Heavy Rivet Racking solution with bespoke shelves, dividers and cladding. This creates a cost effective divider system with strength and easy installation. As well as standard bays we can offer bespoke designs.

Keep cable reels organised

A new solution for organising and dispensing cable and items stored in reels.

The simple side beam supports a 25mm diameter tube which can hold a variety of drums or reels. The beam is notched so the tubes can be placed in 5 different positions. Each level is then fitted with a face beam to enable the material to be passed to the user and conveniently cut to length.

The units come as either static racks or as a low level mobile trolley. Bays are available in either 915 or 1220mm wide and 610mm deep.

● Cable Reel Trolley 915 x 915 x 610 mm

5 different positions for the tube

Braked castors for additional safety

● Cable Reel Rack 1830 x 915 x 610 mm

1830 x 1220 x 610	RRCB/18/12/06/4/BG	60	£289.58

Price includes uprights, plastic feet, chipboard decks and four levels with notched beams, support beams and 8 zinc coated tubes

If you cannot find the right size for your application, please call us for more customised options.

RIVET GARMENT RACKS

The perfect storage solution for any bulk garment hanging requirement. All constructed from Rivet racking components for simplicity and ease of assembly.

The 25mm zinc coated tube slots into place on the notched beams and can be located in five different positions. This can provide a single rail centrally positioned or two rails located on each face of the rack providing twice the capacity. Each storage level can be adjusted every 38mm.

Two single rail garment bays connected with tie plates

ARCHIVE STORAGE SOLUTIONS

Our Rivet Archive range is the perfect solution for high density paper storage and archiving.

Our range of Archive Storage Solutions is formed of our Heavy Rivet range combined with high quality Heavy Duty Archive boxes. Each individual box offers a loading capacity of up to 20kg, with shelves supporting a UDL of up to 500kg.

Rivet Archive is available in two depths, three heights and two widths and is perfect for the storeroom, workshop or warehouse.

Need More Boxes?

Our Heavy Duty Archive box and lid are designed to hold 20kgs of paper. The robust construction means documents will be securely and safely stored. The boxes come flat packed and are easy to assemble. Boxes come with handle holes for easy transportation and the internal dimensions are 250H x 330W x 390D.

RIVET RACKING ARCHIVE

Rivet Racking uses a central deck support which not only supports the chipboard panel but ties the two face beams together.

EXPO 4 BOLTLESS SHELVING

With Expo 4 it's as easy as 1-2-3

The unique friction steel clip and shelf design allows the system to be safely erected in minutes.

It now boasts one of the largest selections of modular capacities and sizes, along with an unrivalled range of accessories all finished in a high quality epoxy powder coat paint.

EXPO 4 offers designers and specifiers a solution to meet any design brief, whether it's a few bays for the office, a multi-tier system or high bay project for the warehouse.

- **Clip fit shelving**
All steel shelf adjustable on steel shelf clips
- **Strong and simple to build**
Build bays quickly and easily adjust shelves
- **Flexible storage systems**
Easily adapts to your changing storage needs
- **Hard wearing paint finish**
Offers a clean and bright epoxy powder paint finish
- **Huge range of accessories**
Solves all your storage problems, now and for the future

Planning the storage layout for Expo Shelving

Calculating Exact Dimensions of the Bay & Run of Bays (all dimensions in mm)

Nominal Height*	H	Clear Entry	CE	CE=W-30mm
Nominal Width*	W	Total Width - Starter Bay	TWST	TWST=W+42mm
Nominal Depth*	D	Total Width - Extension Bay	TWEX	TWEX=W+6mm
(D - Actual depth of the shelf)		Center Width	CW	CW=W+6mm
		Total Depth	TD	TD=D+20mm

* Dimensions used in price tables

- A** Minimum First Shelf Level Height (clip in 1st hole)
- B** Shelf Pitch - Distance between levels
- C** Clear Entry - Useable space between shelf levels
- D** Shelf Thickness (30mm)

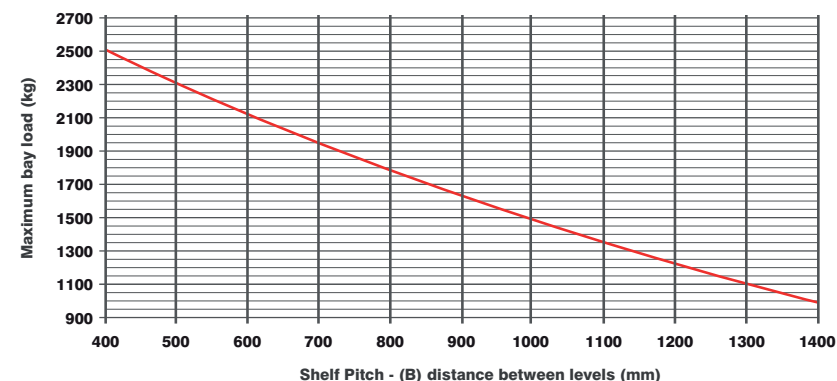

*If using metal feet and/or a plinth, the minimum shelf level height is 76mm as the shelf clip is attached in the 2nd hole

i How to calculate exact Shelf Pitch (B)

Height of item stored + Shelf Thickness divided by 25
= Round decimal up to the next whole number and multiply by 25

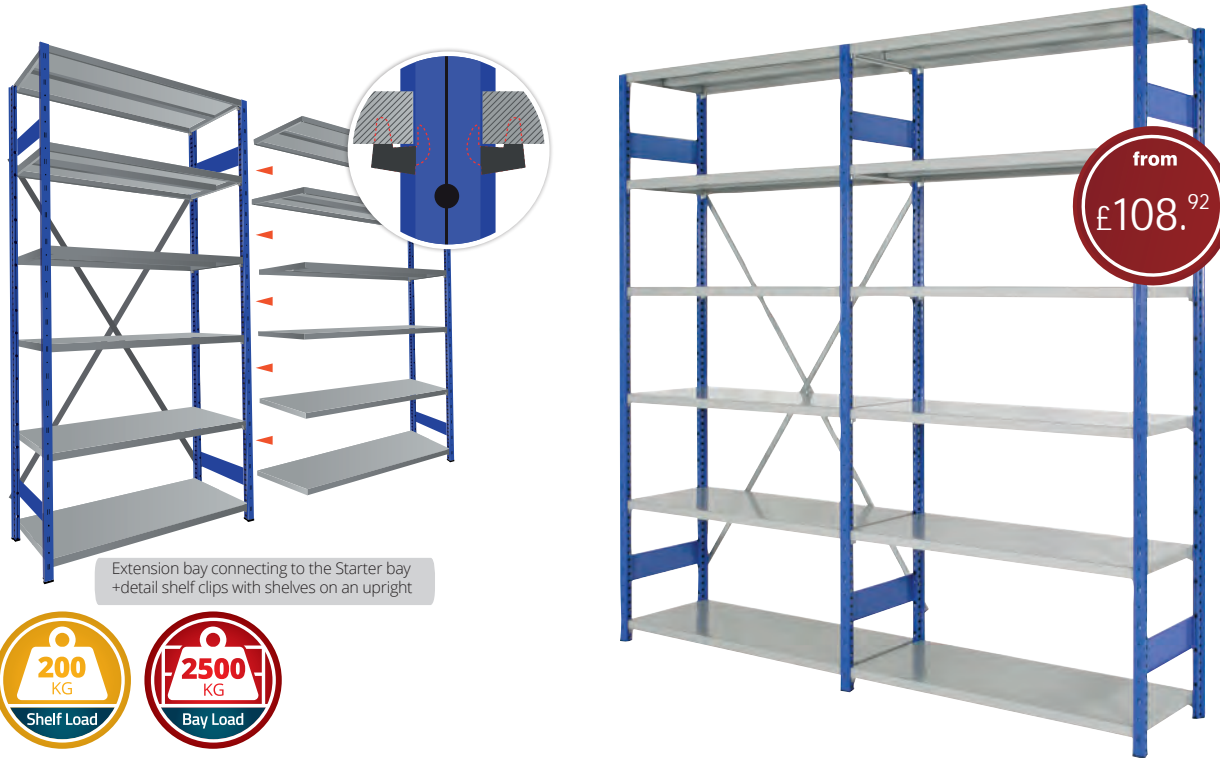

Example: 357mm (Height of stored items) + 30mm (Shelf Thickness) / 25
= 15.48 rounded up to 16 x 25 = 400mm Shelf Pitch

Expo Shelving Bay Loading (kgs)

Easily specify and plan your layout.

NEW EXPO 4 WHITE BAYS

Brand new for 2020 is a pure white (RAL9010) variant of our Expo 4 Steel Shelving Range.

Bays are supplied with six slotted shelves as standard. The slots on the shelves allow for our Slot-In and Fixed Height dividers to be affixed every 100mm.

As with standard grey versions, shelves can be easily configured and reconfigured with our steel shelf clips,

600 x 400	EX33/060/400/WH	£8.95

① Accessory pricing applied in addition to bay pricing. Slot-In and Fixed Height Dividers require slotted shelves (supplied as standard with white bays)

① **White Expo shelves are now fully compatible with Delta Plus - check out the full range on Page 48**

EXPO 3 GALVANISED SHELVING

Galvanised Boltless shelving.

Expo 3 uses the same upright as our Expo 4 shelving system, but has the unique shelf design which can have capacities up to 400kgs UDL. The design is based on a pair of shelf carriers and the combination of 100mm or 200mm panels to make up the required depth.

- **Hard wearing galvanised finish**
Tough and bright finish that will last the rigours of any environment
- **Simple to build**
Build bays quickly to get your storage problems sorted fast
- **Will suit any application**
Versatile and expandable and suits a wide range of industries
- **Interchangeable with Expo 4 system**
Mix and match accessories and components with our Expo 4 systems
- **Wide choice of sizes**
Flexibility to suit all your storage needs within one product

Available Heights (mm)

ⓘ All bays come with 6x shelves per bay and all necessary fixings, bracing, 4x uprights and plastic feet.
Extension bay comes with 2x uprights only.

ⓘ The pre-galvanised steel offers a hardwearing finish suitable for most environments.

EXPO 3 OPEN BAYS

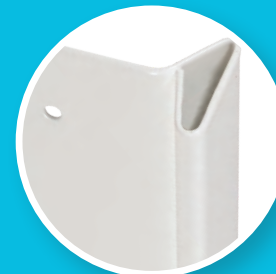

DELTA PLUS STEEL SHELVING

Delta Plus is our versatile steel shelving system and is the evolution of our popular Delta Edge range. Ideal for the office, library, workshop or warehouse, Delta Plus is the ultimate all-rounder.

Developed in-house in the UK, Delta Plus features an aesthetically attractive yet conveniently simple design. The system is brilliantly adaptable with a choice of plain or slotted shelves adjustable every 25mm. The system boasts a vast range of dividers and accessories making Delta Plus perfect for any brief.

Hidden shelf clips and wide open bays maximise the space available to store items. Accessories and dividers allow additional scope to organise items neatly, reducing time and stress.

- **True delta edge profile**
- **Slotted shelves or solid shelves available**
- **100kg (UDL) Shelf loading**
- **Huge range of dividers and accessories**
- **Shelf pitch every 25mm with indicators every 100mm**
- **Hidden shelf clips for maximised storage space**
- **Attractive Pure White (RAL9010) finish**
- **Designed in-house in the United Kingdom**

IDEA PLUS SHELVING

A brand new all steel shelving system that offers a cost effective way to solve any storage problem – a great all-rounder.

The hard wearing pre-galvanised steel enables the system to be used in demanding environments whilst giving the system a modern and bright look and feel, whilst maintaining a 200kg shelf UDL (when braced).

With only two components – upright and shelf, the Idea Plus design has eliminated the need for nuts, bolts or clips meaning bays can be erected quickly and without fuss. The unique connection between the upright and shelf provides incredible stability, whilst offering uninterrupted access from all sides of the bay.

- **Boltless design**
- **200kg shelf UDL (when braced)**
- **Assemble in minutes**
- **Tough hardwearing finish**

ⓘ All Bays supplied with 5 Shelves and Plastic Feet. Standard open bays with no bracing have a maximum bay load of 600kgs.

Brand new design for our highly popular Idea range of steel shelving - now with an increased shelf UDL of 200kg!

CHROME WIRE SHELVING

Our chrome wire shelving system offers a simple to build and stylish storage solution.

The system is ideal for home and office as well as retail display due to the open wire construction. The range offers excellent light distribution onto the products stored and displayed.

The shelving is also suited for kitchens storing dry food and crockery etc, whilst the excellent ventilation through the system makes it perfect for server racks and computer workstations as well as linen stores.

The nickel chrome finish offers a bright, clean and modern feel to the shelving, but should only be used in dry areas and should not come into contact with moisture.

- **Strong and versatile shelving**
- **Nickel chrome finish**
- **Simply slots together**
- **Shelf loads up to 300kgs UDL**
- **Shelf pitch every 25mm**
- **Optional castors for mobile units**
- **No interfering uprights in corner**
- **25mm diameter post**
- **Anti-Static/ESD available**

ESD **CHROME WIRE** SHELVING

Our ESD chrome wire shelving is available in the full range of sizes and accessories.

The simple metal collars and metal foot plate ensures that the bays allow ESD at all times. We also offer braked and un-braked castors increasing the flexibility of this storage solution. All components are available ex-stock and can be delivered within 5 days.

- ESD shelving solutions
- Simple to build and adjust
- ESD trolleys and castors

Remember all Chrome Wire Shelving is in stock with guaranteed delivery in 5 days.

ESD Antistatic shelving solutions for electronic components

i Restricted capacity of castors!

Anti-static castors are designed to hold 80kg each. The overall capacity of the trolley is calculated per 3 castors to allow for uneven surfaces where only 3 castors might be touching the ground.

3 Tier Trolley

H x W x D (mm)	Code	Price
970 x 915 x 460	CWASSKIT2	£226.24
970 x 915 x 610	CWASSKIT3	£248.75

i Price includes 4x uprights, 3x standard shelves with 3x plastic and 1x metal conductive collars per shelf, handle, 2x braked and 2x un-braked antistatic castors.

i Price includes 4x uprights with metal adjustable feet, 4x standard shelves with 3x plastic and 1x metal conductive collars per shelf. Extension bay includes only 2x uprights and two S Clips per shelf to connect to the starter bay. R=Reinforced with one central truss.

i We have multiple solutions to different storage problems, if you are unsure what's best for you, please contact us.

MIDISPAN RACKING

Midspan is our longspan shelving system with steel decking panels supplied in a contemporary pre-galvanised finish.

This makes it ideal for the most demanding applications and environments. The profiles are designed in such a way to ensure there are no sharp edges when assembling or in use.

The system has a wide range of profiles and sizes which provides complete flexibility when designing your warehouse. Along with a range of accessories that make it simple to store many different products as well as bespoke solutions for the automotive industry.

We offer guaranteed delivery within 5 days, including components to build a high bay or multi-tier installation from our large stocks.

- **Heavy duty and secure**
- **Easy to build and reconfigure**
- **Beams adjust every 25mm**
- **Guaranteed delivery in 5 days**
- **Available in blue or galvanised uprights**
- **Galvanised beams and decking panels**

MIDISPAN RACKING

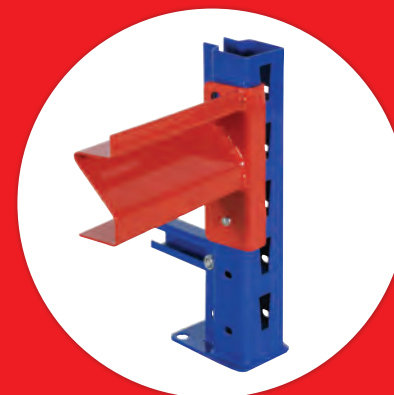

LONGSPAN RACKING

If you need a strong, robust and versatile solution, at a competitive price – then look no further.

The unique fit between the upright and claw gives our longspan racking incredible strength and rigidity. Along with our heavy duty "Z profile" beam which ensures it will meet the most rigorous demands.

All levels come with heavy duty deck supports as standard, this ensures the chipboard shelves carry the same load as the beams. The unique deck support slots into the beam which also eliminates the beams spreading or rotating.

- **Heavy duty Racking system**
Store all your heavy and bulk items with ease
- **Adaptable storage solutions**
Simple to add to, as your storage needs grow
- **Strong "Z" profile beam design**
Unique beam design that offers capacities up to 1200kgs
- **Heavy duty shelf levels**
Shelf levels includes deck supports to match beam capacities
- **Guaranteed delivery in 5 days**
Get your stores organised quickly with no hassle

① Price includes 2x garment rails and safety pins.

① For stability and safety, each Longspan bay should have a minimum of 2 levels.

CANTILEVER RACK

Our cantilever system is based on modular bays and fittings to provide cost effective storage of long and awkward items.

The frames are available in three heights and three depths in both single and double sided configurations. Each bay comes complete with three arms per frame and you can add or deduct the number of levels required.

The arms can be fitted with end stops (at an additional cost shown) to secure any loose products from falling off. The frames are spaced 1000mm or 1500mm apart with bolted on X brace, so you can easily work out your run using the starter and extension bay.

- Incredible value for money
- Easy to build and reconfigure
- Up to 2200kgs per side
- Arms adjust every 75mm
- Tough epoxy finish

All bays are supplied with a base and column per frame plus bracing and all necessary fixings (Floor Fixings 'M12x100' available on request). Single frames include three arms, double frames include six arms. Arm end stops are not included as standard, but can be ordered.

If you don't see a solution that meets your requirements, contact us.

CANTILEVER RACKING

VERTICAL RACK

A cost effective way of storing all those long and awkward items.

Our vertical racking is derived from our Heavy Duty Midspan system. The system comes as a starter and extension bay format meaning long runs are more cost effective.

The bays come with 3 dividers, all necessary frames and base plates, two front beams and one back beam and base rail. Other size racks available to order, please contact the sales office.

- **Great value for money**
- **Store all your long awkward items**
- **Quickly gets your storage organized**
- **Simple to build and reconfigure**
- **Fully adjustable hoop dividers**
- **Starter and extension bay system**
- **Can be secured to the floor**

i We have multiple solutions to different storage problems, if you are unsure what's best for you, please contact us.

PALLET RACKING

We have a variety of pallet racking systems that will provide the perfect storage solution for your business.

We take full consideration that each business needs to find a storage solution which makes the most of the available space.

We will evaluate the type of goods you store, the amount of floor space available for the racking installation, the speed of throughput and the type of equipment you use before recommending the best solution.

- **Adjustable pallet racking**
- **Push back pallet racking**
- **Pallet live racking**
- **External pallet racking**
- **Narrow aisle pallet racking**
- **Drive-In pallet racking**

PREMIUM HEAVY DUTY WORKBENCH

A range of premium workbenches with a massive 600kg UDL capacity (1400kg with pedestal), ideal for heavy duty applications.

The premium workbench system has been designed to perform in all production and mechanical workshop environments. They meet the demands of a modern workplace through a solid engineered design with modular and flexible configurations.

The heavy steel frames support a 35mm multi-ply worktop that will stand the rigours of the harshest use. The units can be fitted with a variety of suspended drawer cabinets, or a pedestal, that can be fitted along the length of the bench for greater flexibility.

- Simple to build and configure
- Strong and sturdy steel frames
- 35mm Multi-ply worktops
- Wide range of drawer cabinets
- Drawers can hold 70kgs each
- Drawers can be sub-divided (17mm)

HEAVY DUTY 'RHINO TUFF' PLASTIC BINS

With a lifetime guarantee, these plastic bins will perform in any environment time and time again.

Their strong robust design and shock proof plastic make these bins ideal for heavy duty industrial applications. The quality and ergonomic design means all our plastic bins can be stacked securely or hung on louvre panels or rails making them efficient in any small part picking environment.

They have a large identification area as well as a large open picking face, meaning the contents are easily identified and picked. With 9 sizes to choose from plus a range of wall panels, racks, trolleys and shelving bays.

- **Small parts storage solution**
- **Made in tough shock proof plastic**
- **Lifetime guarantee**
- **Robust and ergonomic design**
- **Bins in 9 sizes, four colours**
- **Guaranteed delivery in 5 days**

Check out our fantastic range of shelving systems that are ideal for storing bins.

Efficient way to organise
high density small part picking walls

LOUVRE RACKS

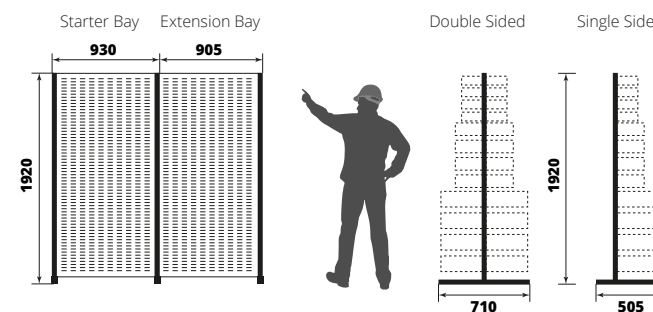

Our range of louvre racks provide an efficient way to organise small parts bins which include every size for our Rhino range.

The racks provide a simple way to organise small part storage bins, providing a high density storage solution whilst maintaining an efficient way to retrieve items from the picking face.

The frames are made from strong box section profiles finished in light grey RAL 7035 and the louvre panels from hard wearing galvanized steel.

Use louvre racks as standalone units or save money by building them in a row.

Best mobile solution for small parts picking

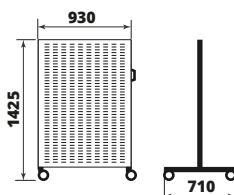

from
£504.⁹⁶

LOUVRE TROLLEYS

Save wasted time travelling to items stored in static shelving installations by putting all your small parts storage bins onto our Louvre Trolleys.

Each trolley has been designed to perform to the highest standards with a robust frame design and tough galvanised louvre panels. Each unit comes with an ergonomic plastic handle so the unit can be comfortably moved. The trolley is fitted with heavy duty swivel castors, that offer ease of movement. Two of the castors are braked, which means the trolley can be secured when not in use.

Louvre Trolley dimensions (mm)

Tilt Bin Application

Tilt Bins can be **stacked** or **interlocked side-by-side**

Secure Rhino Tilt Bins to a **wall** or fix them to a **louvre panel** or **trolley**

NEW RHINO TILT BINS

Tilt Bins are designed with meticulous care for storage applications where products need to be stored, viewed and retrieved quickly, whilst remaining free from dirt and dust.

It has been designed as a two-component binning system formed of a cabinet and tilting bin, which pivots at the front bottom edge of the bin. Bins are available four heights, widths and depths.

- **Stack or interlock Tilt Bins side-by-side**
- **Use as a self-supporting structure, fix to a wall or Louvre panel using its specially designed adapter clip**
- **Large front handles with ergonomic grip**
- **Great for space saving and organising small parts**

Rhino Tilt Bins are built with robust, high-impact polystyrene, providing security to items inside

INDUSTRIAL STEEL CUPBOARDS

New and improved, strong and robust industrial cupboards that offer excellent security whilst keeping products clean and safe.

There is a choice of two sizes that come complete with fully adjustable, reinforced shelves with a 25mm pitch. The cupboard features a mastered three point espagnolette locking mechanism, with two keys (replacement keys widely available). The doors open 180 degrees, offering a full 855mm of horizontal clearing.

- 180 degree reinforced door opening
- Ideal for office and workshop
- Heavy duty shelves - up to 70kg
- New Light Grey finish (RAL7035)
- Mastered three-point locking system
- Shelves adjust every 25mm
- All steel construction
- Door buffers absorb impact
- FIRA Certified
- Ten year guarantee

STEEL CUPBOARDS WITH BINS

Our new range of industrial strength cupboards are available complete with our "Rhino Tuff" plastic bins.

The cupboards are manufactured to withstand the wear and tear of industrial use and provide a safe and secure way to store your inventory. The lockable doors also provide a clean and dust free environment for storing any sensitive items or just to keep stock secure, clean and tidy.

i Price includes complete Kanban bay with 5x sloping shelves, top and bottom shelves.

KANBAN SHELVING

Rivet Racking Kanban is our solution for production line-side supply systems, where sloping shelves present containers for easy access and at the right height for operatives.

This can reduce costs and increase efficiency for manufacturing operations or inventory management. The two bin arrangement simplifies stock rotation and replenishment. When the front bin is removed the bin behind takes its place, leaving a space that is clearly identified for refilling on the next inspection.

SHELF TRAYS

Our range of shelf trays are designed for strength and ease to use at a competitive price.

Our shelf trays feature a spring loaded shelf stop at the back of the tray. This means the tray can be withdrawn from the shelf and suspended offering around 90% clear picking. This stop also acts as a handle to make it easier to carry.

With shelf trays available in 3 depths, 2 widths and 2 heights any configuration can be designed to offer the maximum high density storage solution. Trays can be sub divided from left to right and all trays and dividers come with labels.

- **Improved strength and rigidity**
- **More ergonomic features**
- **Sprung loaded shelf stop**
- **Can be sub divided**
- **High density storage system**
- **Offers fast retrieval times**
- **Large range of sizes**
- **Goods are kept clean**
- **Better product identification**

Keep all hazardous products safe and secure

HAZARDOUS SUBSTANCE CUPBOARDS

It is vital that employers and employees comply with the control of hazardous substances in all working environments.

This range of cupboards and cabinets enables the separate storage and transportation of hazardous substances as demanded by the CoSHH regulations.

- “No snag” handles with 2-point locking
- Adjustable spill-retaining galvanized shelves for superior spill management*
- Integral liquid-tight sump encourages the correct handling of spills through the use of absorbents*
- Floor chests have a welded integrated sump, angled lid to discourage article placement and a hasp and staple lock - padlock not supplied
- Stands raise cupboards by 500mm with an adjustable foot for uneven surfaces.

Magnetic Easy Wipe Location Markers

White magnetic location markers supplied in pre cut single sized pieces. Use a wet-wipe marker pen, write on, update and move when required.

These pre-cut markers offer a quick and easy high visibility system of identifying locations, products or stock quantity's etc.

Our black Marker Pen is unlike most marker pens due to its unique Wet Wipe quality. Most pens of this type are either permanent or wipe off, whereas the Beaverswood pen's ink, once dried, needs a damp cloth for it to be removed.

Secure indoor and outdoor storage solutions

from
£705.⁰¹

SECURITY CAGES

Mini and Maxi Cages provide a secure storage solution for both indoor and outdoor use. Security Cages are suitable for safely storing gas bottles, hazardous materials, and valuable plant machinery.

Maxi Cages are available in 5 standard sizes but can be modified to suit your specific application. All Cages come with a pad-lockable single or double door and a mesh roof as standard. Fixings supplied. Expamet (Expanded Metal) options are available.

Mesh aperture: 50 x 50mm

High quality powder coated finish is available in Grey RAL 7037 as standard, although other colours and hot-dipped galvanised finish (for outdoor use) are also available upon request.

Shelving is available for Mini Cages (P.O.A.)

- Create secure areas with no fuss or hassle
- High quality finish in powder coated in grey RAL7037
- Wide range of sizes to meet your requirements
- Secure mesh panels - 50 x 50mm aperture
- Doors come with facility to fit a padlock (padlock not supplied)

Prices include pad-lockable door assembly, exclusive of padlock. Additional locking options are available upon request.

Need help designing your layout? Please contact the sales office for more information.

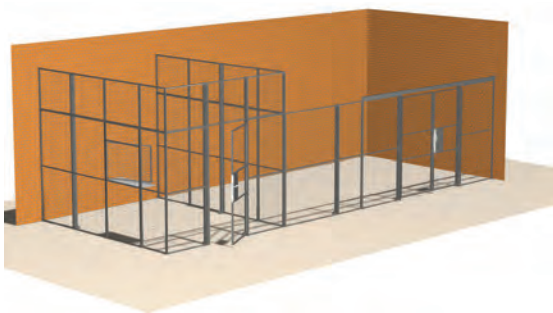

CAELUM MODULAR MESH PARTITIONING

Caelum is a flexible system that can be used to build enclosures, boxes, storage units, and provide protection in automated warehouses.

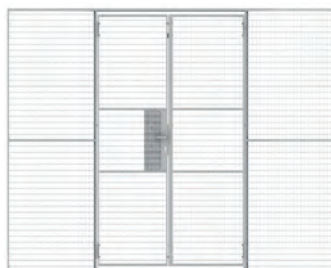

It is particularly useful in bonded stores, low-level and semi-secure storage areas, and for small cage enclosures where high value retail goods (i.e. Smart phones, mobile telephones, tablets, laptops, computers, power tools, liquor, tobacco, etc.) are stored. A variety of additional features such as digital locks (pricing available upon application) provide increased security for high-value goods areas.

Caelum is available in multi-tiered elevations enabling the end user to partition off large secure storage areas within warehouse environments, particularly useful for isolating and storing dangerous goods such as aerosols or combustible materials.

The Caelum Mesh Wall system is available in a variety of powder-coated finishes, or hot dip galvanised (for outdoor use).

FREEWALL STORAGE WALL SYSTEMS

Freewall offers the unique blend of modular space planning footprints with flexibility of bespoke frontages, that are tailored to each customer's needs.

The units can be designed to fit around elements within the building structure as well as keeping a fluid feel to the working environment. Many different levels of interaction and privacy can be incorporated not only within an office but to an individual wall of cupboards.

Freewall offers solutions to new working practices in a way no other storage system can. The ability to change and meet demands is achieved through the flexibility in design, which can be shown in applications from personal storage, using locker solutions to audio visual walls for boardrooms and classrooms.

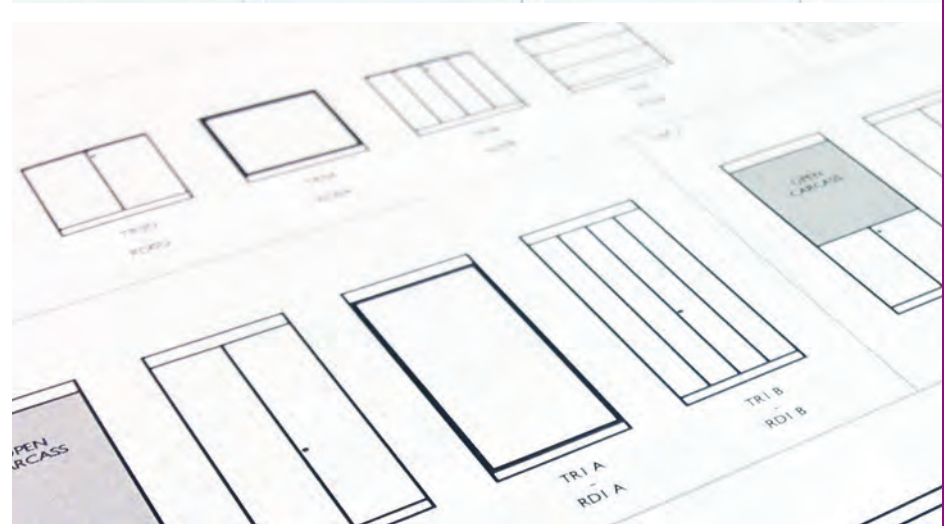

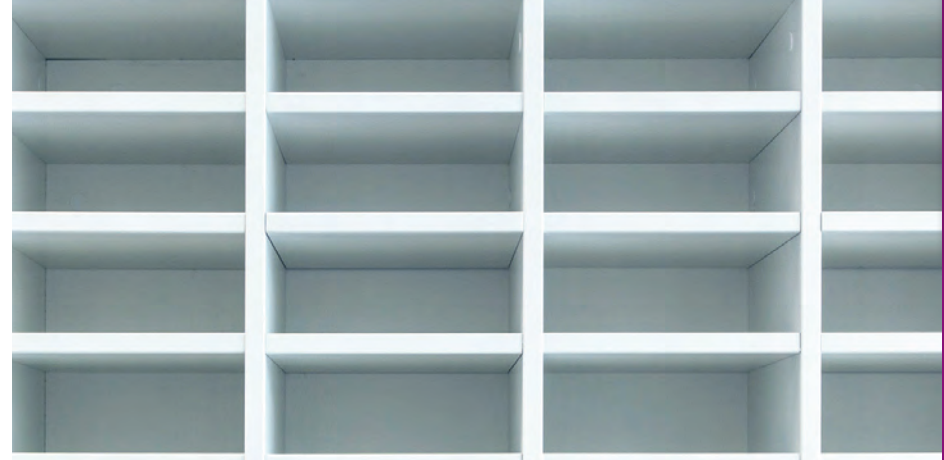

The availability and versatility of the materials used enables us to create contrasting visual elements from classical booked matched veneers to the striking graphical manifestations.

Shape meets function

Every storagewall configuration is specifically designed for you. Like our solutions, we understand offices come in all shapes and sizes and our systems have been cleverly designed to integrate into any office environment to meet your storage needs.

Our units come in different module types, and can be equipped with a vast selection of components and elements to suit multiple uses and help you create the furniture combination you are looking for.

Our craft. Your trade.
Your choice.

We work hard to create a solution which is tailored to your project and to the people using our furniture.

With virtually any finish available and a vast selection of components to choose from, we will work with you to create a bespoke look for your office.

Small details can transform a project. From matching colour schemes to bespoke handles and fitments, we will help you create a consistent finish throughout the workplace.

Laminate Finishes

Custom Handles

Lacquered End Panels

Installation in a breeze

Our team plans every aspect of the project ahead to ensure there are no unexpected events when the time to carry out the installation arrives.

Moreover, our Storagewall products are taken through a design process that meets the requirements of each project. Storagewall is supplied as partly assembled panels and components that are built together on site.

There is plenty of work undertaken behind the scenes at our factory to minimise onsite disruption, all contributing to a smooth and professional install.

Turn handle and lock

Cylinder insert lock

Fixed pull handle

Digital Lock

RFID Lock

Manual Combination Lock

T-Bar handles

Custom handles

LED lighting strip

Number disc

Recycling slot

Ventillation Grill

USB charging port

Our locks and accessories

We supply bespoke, secure locking systems and accessories for our storage solutions.

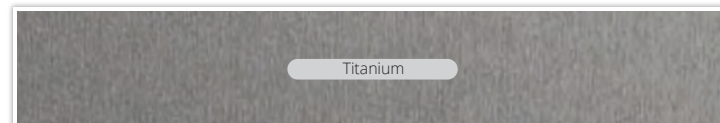

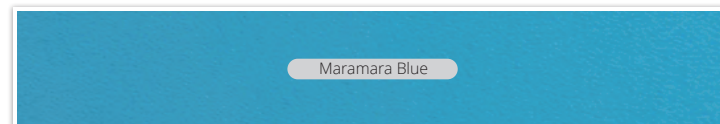

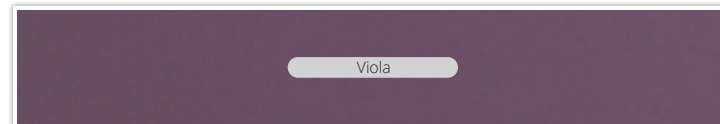

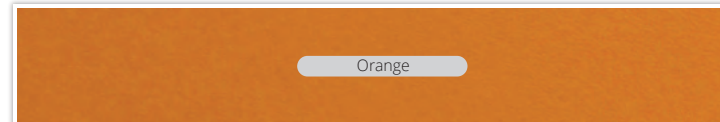

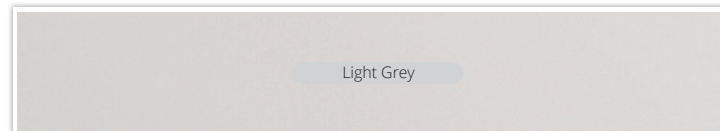

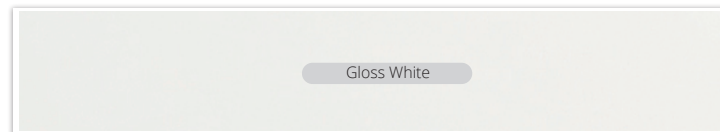

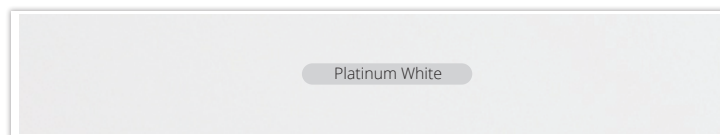

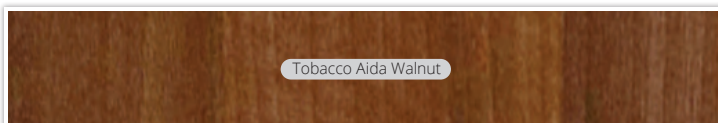

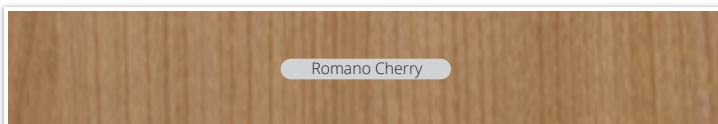

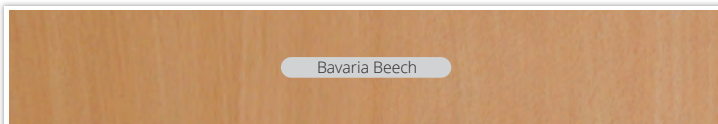

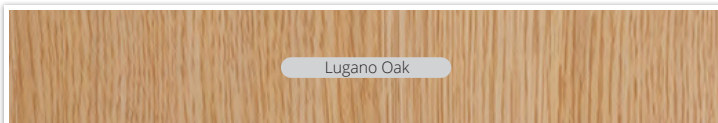

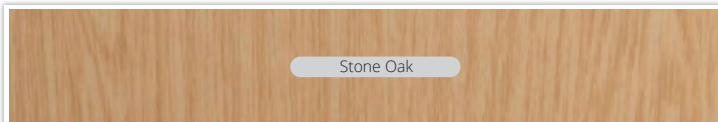

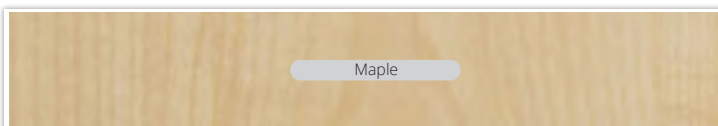

Choose from standard key locks, manual combination locks, single or multiple user digital locks for hot-desking, RFID locks with a swipe card that also works with the building's door entry system... The options are infinite.

In addition to the range of locks and handles on offer, we are able to offer accessories including USB charging points and lighting strips. See our selection below.

From start to finish

A vast range of high quality finishes, laminates and veneers are available.

We have a standard range of colours and the example to your right is only the starting point. We are able to manufacture in any board finish from MFC, laminates, lacquering, acrylics to real wood veneers from all the leading manufacturers – **there are thousands of options.**

Workplace Projects Industrial Fit-Out

The design of a warehouse clearly has a direct effect on the efficiency of the entire business. With such a critical area of the supply chain it makes perfect sense to get expert guidance and support. We can provide advice on warehouse design inside and out, we will listen to you and what your organisation needs and supply the complete solution.

- Industrial partitions
- Kitchen and welfare facilities
- Mezzanine floors
- Storage systems
- Materials handling
- Live storage systems
- Roller and belt conveyors
- Picking and packing equipment

Workplace Projects

Office Fit-Out

Our space planning & design process will ensure that all elements of your office fit-out are considered, from initial ideas to the final commission and handover. We can provide a turn-key solution to meeting the demands of your growing business. We will seamlessly provide all the materials and services which are needed to create bright and modern office environments that achieve the goals and aspirations of your organisation.

- Space planning and design
- Office partitioning
- Suspended ceilings
- Raised access floors
- Mechanical and electrical services
- Floor finishes
- Decoration
- Office furniture
- Storage wall systems
